

[1] MySOS app: Download and install

iPhone

During your designated quarantine period after your date of entry to Japan, the Health Monitoring Center for Overseas Entrants (HCO) will contact you via push notifications and video calls (with AI automated video and/or a human operator) to confirm your current location and health condition.

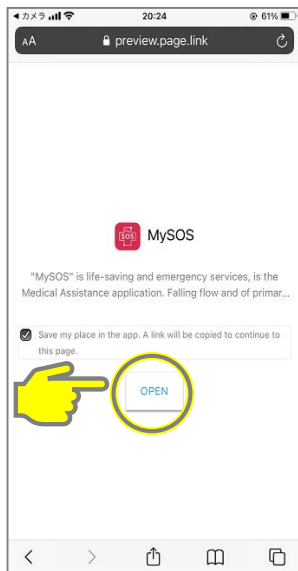

Please do not search and download the app from the App Store or Google Play Store. Install via this link or exclusive QR code.

Install MySOS
